

CUSTOMER JOURNEY MAP

Date	05 AUG 2026
Student Name	P. Srujan Sinha
Project Name	Intergalactic Space Travel Request (ISTR) System
Maximum Marks	4 Marks

ISTR
Intergalactic Space Travel Request System

Revolutionizing Space Missions
One Request at a Time.

Customer Journey Map

SCENARIO: Submitting, Approving, Executing and Completing an Intergalactic Space Travel Request (ISTR)

JOURNEY STAGES

01. Initiate
Requester creates a new space travel request

→

02. Review
Manager reviews request and provides approval

→

03. Validate
Finance validates budget and financial feasibility

→

04. Authorize
Mission Control authorizes the mission based on risk and compliance

→

05. Execute
Mission is launched and tracked until completion

→

06. Complete
Mission is completed and request is closed

OUR ROLES

Requester
Rahul Sharma

Manager
Vikram Patel

Finance Officer
Sneha Nair

Mission Control
Kiran Rao

System Admin
Admin User

TOUCHPOINTS	01. Initiate	02. Review	03. Validate	04. Authorize	05. Execute	06. Complete
 TOUCHPOINTS	Service Portal ISTR - Mission Control Create New Request	My Approvals Email Notification Approval Workspace	Finance Workspace Budget Dashboard Email Notification	Mission Control Workspace Risk Dashboard Compliance Panel	Mission Dashboard Tracking System Real-time Alerts	Completion Dashboard Reports Notifications
 ACTIONS	- Log in to portal - Navigate to ISTR app - Fill request form - Submit request	- Review request details - Check mission feasibility - Approve / Reject - Add comments	- Review cost & budget - Validate funding - Approve / Reject - Add finance remarks	- Review risk level - Check compliance - Approve mission - Add mission notes	- Monitor mission status - Track progress - Manage alerts - Update mission logs	- Mark mission complete - Add final report - Close request - Archive records
 THOUGHTS & EMOTIONS	 "I hope my request is submitted correctly."	 "I need all the information to make the right decision."	 "Is the budget available for this mission?"	 "This mission looks risky, but within acceptable limits."	 "Everything is on track. Mission is progressing well."	 "Mission successfully completed!"
 PAIN POINTS	- Complex form fields - Unclear requirements - Missing information	- Incomplete details - High number of pending requests - Time pressure	- Budget not available - Financial data mismatch - Approval delays	- High risk missions - Compliance requirements - Cross-department coordination	- Unexpected delays - Technical issues - Real-time tracking challenges	- Manual documentation - Report compilation time - Data inconsistencies
 OPPORTUNITIES	- Smart form with guidance - Auto-validation - Save as draft	- Summary view - AI-based recommendations - Escalation alerts	- Budget forecasting - Auto-check fund availability - Financial alerts	- Risk assessment insights - Compliance checklist - Auto-routing	- Real-time dashboards - Automated alerts - Predictive analytics	- Auto-report generation - Knowledge base integration - Feedback collection

MISSION SUCCESS FACTORS

Clear Communication
Keep all stakeholders informed

Timely Approvals
Reduce delays with automation

Data Accuracy
Ensure correct and complete information

Risk Management
Identify and mitigate potential risks

Continuous Monitoring
Track progress in real-time

Knowledge & Learning
Capture insights for future missions

Intergalactic Space Travel Request System (ISTR) | Streamlining Space Missions, Empowering Exploration

Version 1.0 • May 2025
