

Artificial Intelligence – Model Performance Test

Intergalactic Space Travel Request (ISTR) System

<i>Date</i>	<i>05 AUG 2026</i>
<i>Student Name</i>	<i>P. Srujan Sinha</i>
<i>Project Name</i>	<i>Intergalactic Space Travel Request (ISTR) System</i>
<i>Maximum Marks</i>	<i>4 Marks</i>

Applicability Note

The Intergalactic Space Travel Request (ISTR) project is built entirely on the ServiceNow platform as a scoped workflow automation application. It does not incorporate a trained AI/deep-learning model. This template is therefore marked Not Applicable (N/A) for this project, rather than filled with figures that would misrepresent the system that was actually built.

Model Performance Testing:

Project team information for the model performance testing template below.

S.No.	Parameter	Values	Screenshot
1.	Model Summary	Not Applicable – ISTR's automation (Business Rules, Client Scripts, Flow Designer) is deterministic platform configuration, not a trained AI model.	—
2.	Accuracy	Not Applicable	—
3.	Fine Tuning Result (if Done)	Not Applicable	—
