

Machine Learning – Model Performance Test

Date	05 AUG 2026
Student Name	P. Srujan Sinha
Project Name	Intergalactic Space Travel Request (ISTR) System
Maximum Marks	4 Marks

Applicability Note

The Intergalactic Space Travel Request (ISTR) project is built entirely on the ServiceNow platform as a scoped workflow automation application. It does not incorporate a Machine Learning model (regression or classification). This template is therefore marked Not Applicable (N/A) for this project, rather than filled with figures that would misrepresent the system that was actually built.

Model Performance Testing:

Project team information for the model performance testing template below.

S.No.	Parameter	Values	Screenshot
1.	Metrics	Not Applicable – ISTR is a rule-based ServiceNow workflow application (Business Rules, Flow Designer, ACLs) with no trained ML model, so no MAE/MSE/RMSE/R ² or classification metrics apply.	—
2.	Tune the Model	Not Applicable	—
